

OIL PROPRATION IS UNCHANGED

REVENUE BILL DIGS INTO WALL STREET

HOUSE PUSHING AHEAD ON REVENUE MEASURE THURSDAY

FIVE SEPARATE VOTES EXPECTED WHEN BILL COMES UP FOR FINAL PASSAGE

WASHINGTON, Mar. 31.—(P)—New revenue burdens amounting to a tenth of the billion dollar tax bill were placed by the house today upon those who deal in stocks, bonds, real estate and commodities.

Pressing rapidly down the path marked out by its way and means committee, the branch wrote into the bill levies of one-fourth of one per cent of the sales price of stock transfers; one-eighth of one per cent of the sales price on bonds and five cents a \$100 on commodity sales; and five cents per \$500 on real estate conveyances.

All four of the levies expire July 1, 1934. They are calculated to produce a total of \$104,000,000 of revenue and brought the amount thus far written into the tax bill to \$847,500,000.

A tax of eight per cent of the carrying charges of oil moved by pipe lines was next to be adopted. It adds \$15,000,000 more to the bill.

WASHINGTON, Mar. 31.—(P)—The house today wrote into the new revenue bill taxes on stock sales and on the transfers of grain, cotton and produce in the commodities exchanges.

Over the opposition of the "Temporary" delegation, it followed the committee in imposing a levy of one-fourth of one per cent of the sales price of stocks.

A few minutes later, it adopted another amendment by the committee to put an assessment of five cents on each \$100 of cotton, grain and produce sold on these exchanges.

In the case of stock sales, it voted to make the tax effective on orders placed by persons in this country for buying or selling on foreign exchanges.

In debate, members construed the taxes as a blow at short selling.

There still was to be acted on an amendment to put a tax of one per cent on bond transactions.

The commodity and stock (Continued on Page 10.)

Life Sentence Follows Quickly After Murders

ST. IGNACE, Mich., March 31.—(P)—A sentence of life imprisonment in solitary confinement in the Michigan branch prison at Marquette was passed today on Leonard Minor, 25-year-old Chippewa county youth who shot and killed his chum and a girl companion.

Minor was charged with shooting Harold Martindale, 25, and Lennie Selby, 14, who sat at an organ in a farm home near Rexford in Mackinac county last Sunday night. Rivalry with Martindale over the girl's affections led to the shooting, officials said.

NEW YORK'S VOTES WILL NOT BE TIED UP UNTIL LATER

WASHINGTON, Mar. 31.—(P)—The biggest block of votes in the democratic national convention, New York state's 94, is not going to be tied up to any candidate until the very last moment before the party assembly opens in Chicago.

That was the news thrown into a conglomeration of political facts and guesses by John F. Curran, boss of Tammany Hall, who yesterday with the assurance given by expected control of the delegation and the manner of its instruction.

Until then, he made it plain, the 94 can not be added to Franklin D. Roosevelt's 123, nor to the Alfred E. Smith score which may soon boast a solid figure, nor to the votes allocated to any other candidate.

Roosevelt's score yesterday took a modest step upward and an unexpected one. Despite predictions that Maine's delegation of 12 would be uncommitted, the leaders changed their minds and the state convention voted 286 to 245 to instruct for the New York governor.

BIGGEST BLOCK VOTES IN DEMOCRATIC CONVENTION AWAIT DEVELOPMENTS

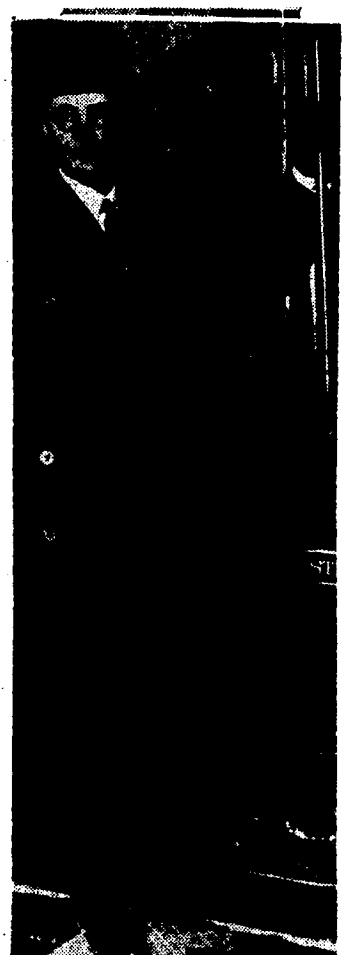

WASHINGTON, Mar. 31.—(P)—The automobile industry this week is plunging into a venture with millions of dollars at stake which its leaders believe may turn the whole tide of American industry.

Ranking as one of the great pillars on which prosperity rests, the motor industry's activities are out of its doldrums. In the past, it followed by executives in other lines of commerce and finance.

Consequently, the significant developments of this week, formal presentation of new models and inauguration of sales drives, are commanding nearly as much interest in Wall street as in auto manufacturing centers and fully as much interest in Main street.

Many executives are hopeful that the concentrated push the motor industry is trying to give to general business will pull the country out of its doldrums. In the past, they point out, almost every depression has had its back broken by the concerted campaign of

DEFINITE PROGRESS ANNOUNCED TOWARD PEACE AGREEMENT

SHANGHAI, March 31.—(P)—Definite progress toward a settlement of the major issues of withdrawal of Japanese troops from the Shanghai area was announced today at the re-opening of the Sino-Japanese peace parleys.

As a result of a breakdown of the conference, anticipated by some observers during the two-day adjournment, was averted and discussions in a more conciliatory mood than since the parleys began.

A spokesman for the conference said both sides were gradually approaching an understanding on the question of a time limit for troop withdrawals and that mutual concessions were being made. The conference adjourned again to meet Saturday.

Although previously the Chinese had insisted on complete withdrawal by the Japanese forces in the Shanghai area, the Chinese today agreed this morning tentatively to extend these limits to include a strip along the Whangpoo river north of the settlement and a larger area in the Chapel district than they were willing to concede heretofore.

Many questions still remain to (Continued on Page 9.)

WITHDRAWAL OF JAPANESE TROOPS MAIN BONE OF CONTENTION STILL

NEW ANGLE ENTERS LINDY KIDNAPING CASE THURSDAY

PHILADELPHIA WOMAN'S STORY TO BE THOROUGHLY PROBED IT IS STATED

PHILADELPHIA, March 31.—(P)—Mrs. Walter C. Hancock, prominent club woman, who says she was visited by a woman who believed she had a good clue to the kidnapped Lindbergh baby, said today the investigation being conducted by Philadelphia police might take a week or two.

Mrs. Hancock, the wife of a coal dealer, said she was not at liberty to give the name of the woman. "She is not sensational and has no desire to capitalize in any way on what she knows of the case," Mrs. Hancock said.

"She is certain from the actions of certain people she knows that the baby is in Philadelphia, or nearby, at least," the detectives are running down her clues.

"The woman came to me in good faith and said she knew something about the case. She explained very fully what prompted her to call me, and the police were satisfied."

Mrs. Hancock would not say at this time why the woman selected her for the purpose of telling the story, but added it was "very interesting," and might be divulged later.

Director Kern Dodge of the department of public safety said he did not care to discuss the information which this woman gave Mrs. Hancock.

"It is one of the many bits of information that have drifted into police headquarters since the start of this case, and it is being carefully investigated," he said.

Admiral Gives Out Little Information

NORFOLK, Va., March 31.—(P)—Rear-Admiral Guy H. Burrage, spokesman for three negotiators here for the recovery of the Lindbergh baby from kidnappers, said today no new move has been planned by the intermediaries.

The announcement, made at a conference with newspapermen, came after Admiral Burrage had (Continued on Page 9.)

Battle Royal of Buffaloes Cost Lives of Five

PONCA CITY, Okla., March 31.—(P)—Five of the famous 101 Ranch buffaloes have perished because they wanted to be free.

They were killed, according to receiver Fred Clarke, in a spectacular battle royal such as has not been seen since the shaggy beasts roamed wild in the west.

He said the fight occurred in a ranch stockyard where the buffaloes were placed following a herd stampede and rampage for shipment to the McClure and Teeters Ranch, near Eldorado, Kas., their purchasers.

Colonel Zack Miller, former owner of the buffaloes, who is under bond on a charge of assault with a dangerous weapon for firing a shotgun into the floor behind a receiver's attorney last week in protest to an auctioneer's property, declared the buffaloes were run to death by "green hands" seeking to corral them.

"They didn't know how to handle them," he said. Buffaloes the veteran plainsman and wild west show owner added, can't stand being in a corral.

"It breaks their hearts," said Col. Miller.

GOOD WILL TOUR AND TRADES DAY IS PLANNED AT FROST

FROST, March 30.—(Spl.)—At a meeting of the chamber of commerce yesterday committees were appointed for the perfection of a good will tour of the Frost territory. The date was called for Tuesday, April 5th, and the itinerary will include Slay, Lone Cedar, Blooming Grove, Dresden, Raleigh, Emmett, Irene, Mertens and other points in this trade territory.

Approximately twenty autos will make the trip carrying advertising matter, and each car is expected to be decorated carrying banners representing some of the business houses of the town.

The primary purpose of the trip is to advertise a trades day here on Saturday, April 30, at which time money premiums and approximately \$40 worth of merchandise will be given away.

HIGH WINDS AT NAVASOTA

NAVASOTA, March 31.—(P)—High winds caused some damage in Southeast Texas yesterday. Thirty houses in the negro section here were virtually destroyed. Huntsville, Caldwell and Fryburg received high wind, rain and hail.

Home To Hull House

Miss Jane Addams, world-famous philanthropist and social worker, being welcomed back after her four months' absence to Hull House, in Chicago, by a group of children at the famous settlement.

TWO BILLION DOLLAR BONUS PAYMENT WILL BE BEFORE CONGRESS

WASHINGTON, Mar. 31.—(P)—Representative Fish (R., N. Y.), on leaving the White House today said he had informed President Hoover he believed the possibilities of the adoption of new bonus legislation by the house had been hunted aside by the chief executive's recent statement opposing such legislation.

He characterized proposals by Representatives Patman (D., Tex.) and Rankin (D., Miss.) that new currency be issued to make new bonus payments as "too absurd to discuss."

"In understand the secretary of the treasury has suggested that if such notes are issued they carry the picture of Representative Patman on one side," Fish said. "My amendment would be that they place Rankin's picture on the other side."

"Rankin's statement that all that is necessary is to issue new paper money was inconceivable to me. The same principle would apply to balancing the budget, and if his argument bore any weight we would only have to issue new money to balance the budget."

Fish said he had told the president it was his opinion that over one-half of the veterans in the house were opposed to additional bonus legislation, adding he believed that "any attempt to appropriate \$2,400,000,000 for this purpose in the present national emergency, would knock the props from under the entire program of national economy and would destroy economic confidence."

RESULTS VOCATIONAL AGRICULTURE JUDGING IN COUNTY MEETING

Results of the Vocational Agriculture judging and public speaking contest held Friday and Saturday in connection with the Navarro County University of Texas Interscholastic League track, field, and literary meet at the State Home, were announced Tuesday by W. T. Brumblow, director general of the entire meet. This is a new feature of competition among rural schools, being held this year for the first time, but it is not affiliated with the Interscholastic league, and no points were awarded the schools participating in it.

D. B. Pitts had charge of this contest.

Highpoint men in the dairy judging contest were Leon Summers, first; Arthur Kaufman and Alvin Myers tied for second place; and Leo Gourley was third. Following are the final results in the various divisions:

Public Speaking—First, Esley Ralston, State Home; second, Leon Summers, Kerens; and third, Chas. Lewis, Blooming Grove.

Dairy Judging—First and second individuals, Kerens; third individual, State Home; and Blooming Grove.

Poultry and Eggs—First, second, and third individuals, Dawson; Kerens, and State Home.

Plant Propagation—First, second, and third individuals, Blooming Grove; Kerens, and State Home.

Grain Judging—Second individual, Blooming Grove; first and third individuals, State Home, and Kerens.

Several Candidates For School Board In Kerens This Year

KERENS, Mar. 31.—(Spl.)—Kerens board of education for the Kerens independent school district has called an election to elect three members of the board to serve for a period of three years to be held the first Saturday in April. The board has been petitioned by citizens of the community to place the names of W. S. Price for reelection, V. N. Crowley for reelection, W. D. Arnett for reelection, Andrew Talley, J. B. Smith, Dr. J. C. Blair, and E. M. Westbrook on the ballot to be placed in the hands of voters in the election. Mr. Price has requested that his name be withdrawn from the ballot since he has served for so many years in the capacity of school board member.

MORATORIUM EXTENSION.

STOCKHOLM, Sweden, March 31.—(P)—The government today granted an application by officials of the Kreuger & Toll Companies for a one month extension of the moratorium granted immediately after the death of Ivar Kreuger.

Auditors examining the company's affairs said the extension was desirable if their investigations were to continue unhampered.

ATTORNEY GENERAL RECOMMENDS METERS ON OIL PIPELINES

WOULD PREVENT DISHONESTY AND PROVIDE NEEDED INFORMATION

AUSTIN, March 31.—(P)—James V. Walling, state attorney general, said today his department would recommend to the Texas Railroad Commission that it adopt an order directing that pipe line systems in the East Texas oil field be metered.

Allred said the meters should act as a check against unfair and excess production, and as an aid to checking on gross production and gasolene tax collections.

Fred Upchurch, assistant attorney general acting as legal advisor to the commission, said the meters would furnish not only the railroad commission, but other state agencies with data now only partially available on production.

A tentative order, drafted by Upchurch, would call for installation of meters on so-called "trunk" lines near some point outside the production area, on the end of the gathering lines before the oil goes into the trunk line, at the ends of lines leading to leading tanks and at the end of lines leading to refineries.

"Those operators who are fair to their royalty owners and their off-set neighbors will be glad to see the meters installed," Upchurch said. "Their chief purpose would be to make certain that every one in the field is treated alike in the railroad commission's orders and that no man have an advantage."

This plan also would eliminate the "by-pass," Upchurch said, since the meter would show the amount of oil entering the trunk line regardless of whether the oil flowed from the tanks or a hidden passage.

FROST SCHOOL ELECTION

FROST, Mar. 31.—(Spl.)—W. J. Halcomb, school superintendent, announced today that the school election to be held here Saturday, April 9. Four trustees are to be named at this election. The board recently re-elected W. J. Harrison as superintendent for the eleventh successive year.

Many Workmen Be Reemployed At Ford Plant

HOUSTON, March 31.—(P)—F. S. Reinhardt, manager of the Ford Motor Company plant here, announced today that "within the next few days" approximately 1,400 workmen would be re-employed at the plant.

"It will employ more than 1,000 families," Mayor Walter E. Moore observed, when informed of Reinhardt's statement, "and will certainly knock a big hole in the unemployment situation."

The plant has had more than 200 workmen already had returned.

Frost Will Clean Up During First Week In April

FROST, Mar. 31.—(Spl.)—Mayor S. E. Gaines has issued a clean-up proclamation naming the first week in April as clean-up week. Following the cyclone of two years ago the town has not been thoroughly cleaned up since then.

In the call Mayor Gaines appeals to the Chamber of Commerce and all civic clubs to assist in a general clean-up.

The task will begin tomorrow with the North White club taking the initiative. They purpose to clean up several vacant lots and to plant blue bonnets thereon.

NEW POLICY PLANNED THAT WILL TREBLE INCOMES FOR SOVIET WORKERS-OFFICIALS

(Copyright, 1932, by Associated Press.)

MOSCOW, March 31.—(P)—Members of the Communist party, including the highest government officials as well as factory workers, have been limited to the smallest salaries in order to get an example for the rest of the proletariat.

Three factors, were said to be inspiring the action. The first was the enormous loss of time and energy by party members holding important posts due to the necessity for seeking out places where they may buy the necessities of life at prices commensurate with their incomes. The second was that many, especially those with large families, have sought extra work at writing or at lecturing in order to augment their income.

The third was that many capable officials have refused to accept posts of responsibility because they received the same pay as subordinates. They would as chiefs, without the responsibility.

Since the revolution, members of the party have been strictly limited to the smallest incomes and the plainest lives in accordance with Lenin's watchword for the pure Communist state: "From each according to his ability, and to each according to his needs."

It has been the rule, rather than the exception, under the present system, to see qualified specialists, and even skilled laborers, who are non-members of the party commanding two, three or four times as large salaries as those received by the highest government officials.

In Death Pact

Mrs. Elizabeth Coleman, Quaker missionary, who ended her life with her husband, Rev. Horace E. Coleman, Sr., and their son, Horace Coleman, Jr., in strange suicide pact in Chicago. Bodies of the three were found seated in their automobile in a garage filled with carbon monoxide gas. Friends and relatives were mystified over reasons for the suicide pact and request that their bodies be cremated and the ashes strewn under the trees of a home they formerly occupied in Japan.

SECRETARY WILBUR URGES MODIFICATION OF ANTI-TRUST LAW

OIL, GAS AND TIMBER INDUSTRIES WOULD BE GIVEN MORE LATITUDE

WASHINGTON, March 31.—(P)—Legislation to permit agreements between producers in the oil, gas and timber industries with a view to controlling production and avoiding waste was urged before a senate committee today by Secretary Wilbur.

Insofar as "natural resource" industries are concerned, he favors the Nye bill to enable the federal trade commission to approve agreements adopted by an industry and give them legally binding effect.

The secretary of the interior added that some provision should be included requiring that the agreements become operative if it produces coercion on a member of the industry or results in exorbitant prices to the public.

President Hoover in his annual message recommended that congress consider changing the anti-trust laws along this line.

Remembering that the subject has had careful consideration at the interior department, Wilbur said he is conscious of the fact that the method by which the government is now seeking to control natural resource production "are not only inadequate but wasteful."

"They are not bringing the returns they should," he said.

Under the bill the commission would be the government agency passing on trade agreements drawn up by an industry.

Wilbur suggested it might be well to have a measure dealing only with natural resources were enacted.

FOUR ARRESTED AFTER DISCOVERY TUNNEL TO BANK

ABILENE, March 31.—(P)—Charges of conspiracy to burglarize the Citizens' National Bank were filed here this morning against four young men, one of them a former star at the Abilene High school football team and a letterman on the 1930 University of Southern California squad. The four were arrested yesterday in connection with the discovery of a 48-foot tunnel, dug from a vacant building immediately east of the bank.

The men charged are Rupert (Butcher) Black, 1929 graduate of Abilene High school, and a tackle on the Eagle football teams of 1927-28; Edwin N. Nave, Malcolm W. Foster, a half-back of Rupert, and E. Oliver Black, a cousin. The first two named were arrested in the vacant building.

ABILENE, March 31.—(P)—Discovery of a tunnel 45 feet long near a bank here has led to the arrest of four young men, one a former star football player at Abilene High school, who started in 1930 on the Southern California football squad.

Last Sunday officers observed a new tenant in a vacant building near the Farmers' and Merchants' National Bank had painted the windows of the place, and they set up a guard.

Meanwhile, they learned windows in a vacant concrete structure near the Citizens' National Bank had been given similar treatment. Yesterday they entered the concrete building and found two men, one the former football star, and the tunnel.

The tunnel led from the concrete building under another building and about eight feet north of the Citizens' National Bank building's north line. It was about seven feet below the street level.

The seven said they had been hired by another person, whose name they gave, to dig the tunnel. They said they were told it would be used as a liquor cache. They explained they had been digging about two weeks, trucking the dirt away.

Two other youths found with the truck were arrested.

MUNICIPAL ELECTION

FROST, Mar. 31.—(Spl.)—An election will be held here Saturday to elect two members to succeed Guinn Haley and Bill Ross, whose terms expire. Their names will appear on the ticket, unopposed.

PRODUCTION FOR SEVERAL FIELDS TO REMAIN SAME

RESULT OF OIL HEARING BY RAIL COMMISSION IS ANNOUNCED WEDNESDAY

AUSTIN, Mar. 31.—(P)—Production allowables in Texas oil fields involved in a hearing of operators before the Texas railroad commission yesterday will be fixed at "practically" the same as the existing orders permit, R. D. Parker, chief oil and gas supervisor, announced today.

Allowables in the fields involved in yesterday's hearing are as follows: Southwest Texas, 51,000 barrels daily; Yates, 65,000; Winkler, 40,000; Darst Creek, 18,000; Salt Flat, 10,000; Ector, 6,300; Howard-Glasscock, 26,000; Crane-Upton, 10,700; West Central Texas 30,000; North Texas, 67,000.

Amon G. Carter Says Garner to Be President

NEW YORK, March 31.—(P)—A "plain, blunt-spoken American" from the Lone Star state will be the next democratic presidential nominee, says Amon G. Carter, Texas newspaper publisher.

Carter, publisher of the Fort Worth Star-Telegram, arrived here yesterday by air predicting the Chicago convention will select Speaker John N. Garner.

"In this hour of national emergency when leadership is sorely needed," he said, "we in the Southwest believe that John Garner is the most available man."

Carter flew with Capt. Frank Hawks, speed aviator, from Fort Worth, encountering lashing winds which tore fabric off the wings.

He said Texas democracy is united and its delegation of 46 votes will be behind Garner solidly.

TWO

INTERESTING ZONE MEETING HERE FOR MISSIONARY WOMEN

ABOUT NINETY DELEGATES
IN ATTENDANCE ON
MONDAY SESSION

Representatives from the various Missionary Societies comprising Zone No. 1 of the Methodist Episcopal Church, South, met in regional session Monday afternoon, March 31, at the home of Mrs. E. E. Bristow, president of the Corsicana district.

Member churches in this zone include Kerens, Bazette, Eureka, Elmhouse, Rice, North Corsicana, Eleventh Avenue and First Methodist of Corsicana.

Mrs. Thomas Hanks of Corsicana, was leader par excellence, and introduced the various ones on the program, the subject for the afternoon being "The Christian Home," the same being presented by members of the Kerens society.

The opening prayer was given by Rev. H. C. Bowman, turning over the subject for the afternoon, "The Christian Home," and the wonderful influence of the Christian home in helping to mold the character and the education of the children entrusted to our care—a sacred trust and a pleasure as well as a duty.

In introducing her subject, Mrs. A. B. Keen called attention to various passages from the Bible bearing on this all-important subject, citing the fact that it takes ordinarily two people to make a happy home—a father and a mother, but sometimes a strong character and a weak one.

John, in his epistles, has enjoined us to give our feet in the "way of peace."

Let us not be too busy seeking the high places of favor and honor in life to tend our own home fires. Let us see that we reign supreme, tempering the same with the wisdom of prayer that God will direct us in the path of righteousness.

"Take Time to Be Holy," sung in unison, was followed by the devotional reading by Mrs. John Holland who gave a beautiful interpretation of the various messages she cited, stressing the point that we wish His divine blessings in our own household, and in our own lives.

Next on the program was Mrs. G. H. Sargent, who proved conclusively that a child has a right to religious training, stressing the fact that we are responsible to God for the precious living can be more beautiful than the unfolding of the pages of the book of life day by day.

That it behooves parents to do their part in seeing that the "in-scription" on the pages are what they should be—a wondrous book indeed, when a child receives the moral support that every home should give.

Just here our much-loved Mrs. John S. Callicott, district secretary, was called to the floor and in her usual happy manner, extended cordial greetings to the organization and imparted valuable information along various lines of our work.

She announced the annual meeting at Gatesville April 18, 20, 21, and the next zone meeting at Eureka.

Outlining some of her plans, she urged us to not fall down on our knees and that she had enjoyed her wheelbarrow of letters and hopes the reports would come in promptly.

"Child's Right to Religious Training" was ably handled by Mrs. Andrew Talley, and she struck the keynote of success for same when she said that joy should be the proper attitude of life—religion should be happy and wholesome.

That religion should be passed on to our children, and we should strive to see that our own faith grew every day along with theirs. It is a fundamental thing, a solid foundation and being long solid should become beautiful personally to the child.

We can not give our children wealth, perhaps, but we can carry on the faith, the Christian home, and know the comfort of prayer.

The atmosphere of our homes decides largely the atmosphere outside—our homes make the nation.

It behooves parents to look to the home, the fireside, for only loving hearts can make a home, and all of life dies when love is done.

Next on the program was a solo by Mrs. Middleton Westbrook which was greatly enjoyed after which Mrs. Burel Davis was introduced and gave a beautiful reading, "The Home of Beginning."

The showing herself to be quite a talented reader.

In the absence from the city of the president of First Methodist Missionary Society, Mrs. Lee J. Byrnes was introduced and she graciously extended a welcome to the visitors in our midst, and thanked them for the beautiful and splendid program they had put on.

Pretty little Miss Betty Jo Benton concluded the program with a reading, "Borrowed," which was well received, this the last of the Missionary Society served a dainty plate.

The presence of several of the pastors of the district and the secretary plus the presence of a flood of friends attending to the success of this meeting.

MRS. A. H. WILLIE, Reporter for Zone 1.

Eighteen Under Arrest Result Counterfeits

BEAUMONT, March 30.—(P)—Eighteen men are under arrest here today and counterfeit \$20 bills totaling \$1500 were held by secret service agents, in an investigation of a flood of counterfeit money which deluged the city starting last Saturday.

Additional secret service men are expected to arrive in the city tomorrow and charges are expected to be filed. Two more arrests were made today.

Taking A Long, Large Look At Creation And Creator

"In The Beginning, God"—And Some Clear Consequences of That Stupendous Truth—What It All May Mean to Man

BY WILLIAM T. ELLIS

"Sweet bells jangled out of tune"—though not so sweet as the noisy notes of scientists these days concerning the universe. There is no agreement among the astronomers and physicists as to the whence or whither of creation. About all they have done of a surety, so far as the interests of the average layman concerned, is to show that the Creator did a vast job that our ancestors ever dreamed. Judged by His handiwork, God is even greater than the Scriptures writers were able to conceive.

That is a truth for the times, outstanding in this lesson. For we need it great God. No little or limited deity could guide us in these days of dread and depression. Human hearts require the assurance that the Creator of all has not gone off and left His handiwork to its fate. God is still in the world, and He is still in the world.

His divine way, He is still perfecting His supreme handiwork, man. Genesis was only the beginning, not the end. Since then there have been many other far-reaching providences, and Jesus Christ, God is timeless; and His plans for still working out, although on too grand a scale for any mortal's comprehension.

Building on a Rock. Foundations are the first consideration in the erection of any large structure. Even the broad-based Great Pyramid had to be built upon mother rock. So with life. Our first need is that we shall be pillars and established unshakably in the truth of an unchanging God. No other basis can survive the shocks of such storms as have lately swept over the world. Faith in a great God, who is also a good God, is the lesson of this lesson. When we say "Our times are in His hand," we want to be sure that His hand is the omnipotent one that shaped the universe and still controls all the forces of nature. This is a day to draw a long breath, take a wide look, and say, "The infinite Creator is my God, and my Father."

Jesus supplemented what the Old Testament tells us about the great and good God. There are no pictures of the majesty and benignity of the Deity to equal those found in the Hebrew psalms and prophets. A reading of the notes of the fortitude into the human heart. But Jesus went farther. He revealed the personal and paternal character of Jehovah. The Creator is also a Father, tender, patient, sympathetic, all-caring.

Over and over again, daily and hourly, troubled and burdened hearts should devoutly murmur, "Our Father, As the little child, take a wide look, and say, "The infinite Creator is my God, and my Father."

Jesus supplemented what the Old Testament tells us about the great and good God. There are no pictures of the majesty and benignity of the Deity to equal those found in the Hebrew psalms and prophets. A reading of the notes of the fortitude into the human heart. But Jesus went farther. He revealed the personal and paternal character of Jehovah. The Creator is also a Father, tender, patient, sympathetic, all-caring.

There are no pictures of the majesty and benignity of the Deity to equal those found in the Hebrew psalms and prophets. A reading of the notes of the fortitude into the human heart. But Jesus went farther. He revealed the personal and paternal character of Jehovah. The Creator is also a Father, tender, patient, sympathetic, all-caring.

Over and over again, daily and hourly, troubled and burdened hearts should devoutly murmur, "Our Father, As the little child, take a wide look, and say, "The infinite Creator is my God, and my Father."

Jesus supplemented what the Old Testament tells us about the great and good God. There are no pictures of the majesty and benignity of the Deity to equal those found in the Hebrew psalms and prophets. A reading of the notes of the fortitude into the human heart. But Jesus went farther. He revealed the personal and paternal character of Jehovah. The Creator is also a Father, tender, patient, sympathetic, all-caring.

Over and over again,

FEW CLUBS WILL HAVE FULL STRENGTH WHEN 1932 SEASON STARTS

INJURIES, ILLNESS AND DEATH HAMPER MANAGERS' EFFORTS

BROOKLYN APPEARS HARDEST HIT; YANKS LOSE JOHNSON; COCHRANE HURT

By GAYLE TALBOT
(Associated Press Sports Writer.)
NEW YORK, March 31.—It's a rare and happy baseball manager today who can count on having his strongest line-up available for the opening of the major league season.

Injuries, operations, illness and even death have cut sharply into the roster of eligibles since the training camps sprouted a month ago.

Brooklyn, with two regulars out for an indefinite period, appears to have been hardest hit. Del Bissone, regular first baseman, is in the hospital after an operation on the achilles tendon and may not be available for months. Frank (Lefty) O'Doul, slugging outfielder, is nursing a bruised right hand.

The Boston Red Sox will line up April 11 against Washington without two players Manager Shauno Collins had counted on. Big Ed Morris, veteran pitcher, died of stab wounds and George Stumpf, a promising outfielder purchased from the Yankees, is in bed with intestinal influenza.

An operation for appendicitis cost the Yankees the services of Pitcher Henry Johnson until well up in the campaign, doubtless even then he will be of much value to the club. Yankees' agents are viewing with alarm a "kink" that settled in Babe Ruth's neck the other day.

Phillies Crippled

Two of the Philadelphia National's four first line pitchers are returning from the south in doubtful condition. Jim Elliott, the club's ace southpaw, is wearing a slab of porous plaster on his back, while Clise Dudley is nursing a sore arm. Chuck Klein, the Phillies' powerhouse, has a pair of ailing legs.

John McGraw is having much difficulty getting all his New York Giants on the field at the same time. Johnny Vergez, third baseman, is on the bench with an injured knee and catcher Frank Hogan also has an uncertain knee. Second Baseman Hughie Critt can't get the old whim in the throwing arm.

Mickey Cochrane, the Athletics' brilliant catcher, going about in rubber slippers after an operation on an infected foot, but will be ready by opening day if there are no complications.

Wrestling Last Night

(By The Associated Press.)

Cleveland—Jim Lando, Greece, threw Jim Clinkstock, Oklahoma, 12:12; Gino Garibaldi, threw Floyd Marshall, 21:04; Pat O'Shocker, defeated Frank Brunowicz, 17:29; Steve Znosky threw George Hill, 10:08.

Springfield, Mass.—Henri Deplane, France, won two falls out of three from Marin Plestina, Chicago; Jack Ganson, California, threw Bull Martin, Trenton, N. J., 28:10.

Reading, Pa.—Gus Sonnenberg, 205, Boston, threw Boris Demetoff, 208, St. Louis, 38:10; Kara Pasha, 195, Boston, and Pat Fraley, 200, Texas, drew, 30.

New York—Fred Grubmier, 200, Iowa, threw John Maxos, 208, 22:10; Abe Coleman, 200, Los Angeles, threw Carl Vovel, 218, Germany, 18:20; Jim Browning, 225, Verona, Mo., threw Fred Myers, 205, Chicago, 23:19; John (Cay) Kazanjian, 213, California, drew Joe Vargo, 202, Cleveland, drew, 30; Wong Cheung, 200, China, threw Pat Riley, 205, Texas, 12:50; Mercer, 205, Montreal, threw Tommy Texts, 205, San Antonio, 30.

Boston—Jack Washburn, 220, Los Angeles, defeated Sander Szabo, 210, Hungary, straight falls; Tiny Roebuck, 240, Tulsa, Okla., threw Doug Wyckoff, 210, Atlanta, 4:50; George Kotsanos, 205, Los Angeles, threw Ghafoor Kahn, 215, Afghanistan, 6:33; George Linnehan, 200, Boston, and Babe Caddock, 220, Nebraska, drew; Oke Shikima, 210, threw Charles Olsen, 220, Minneapolis, 6:18; Herman Hickman, 220, Knoxville, Tenn., threw Mike Romano, 205, New York, 10:55; Freddie Kilby, 208, Boston, threw Ole Anderson, 210, Nebraska, 10:22.

Philadelphia—Karl Pojello, 196, Chicago, threw George Zarynoff, 196, Ukraine, 28:18; Charley Hanson, 192, St. Paul, drew; Pat McKay, 210, Boston, drew, 30; Pat McGill, 226, Omaha, outpointed Leo Numa, 216, Boston, 30; Nick Lutze, Los Angeles, outpointed Charley Strack, Springfield, N. Y., 30.

Kansas City—Everett Marshall, 220, La Junta, Colo., won two falls out of three from Joe Savoldi, 205, Three Oaks, Mich.; Wladek Zbyzsko, 235, Poland, won on a foul from Dutch Jones, 220, Sherman, 17; Charlie Fischer, 165, Fulton, Wis., and Wayne Long, 195, Burlington, Kans., drew, 30.

ACTION SCENES AT COUNTY MEET

Above are a number of scenes at the Navarro County University of Texas Interscholastic League annual meet held at the State Orphan's Home last week-end, including a number of action photos. This annual meet attracted several thousand interested spectators.

CORSICANA BOWLERS DEFEATED MEXIA CONTINGENT WEDNESDAY

Corsicana bowling team defeated the Mexia contingent on the local alleys Wednesday evening by a margin of 298 pins in a high scoring exhibition before a large crowd of local and visiting fans, and thereby evened the score with the Limestone county club that trounced the local five at Mexia Monday evening by a 108-pin margin.

High scoring honors went to Charlie of Mexia, who turned in an average of 208 2-5 plus per game for the five sessions. Bob Sweatman of the Corsicana club averaged 202 3-5. Corsicana jumped into the lead in the first game, Mexia rallied in the second to reduce the margin and Corsicana excelled in the third session. Mexia had the advantage in the fourth but the Corsicans forged ahead in the final session.

Corsicana averaged 180 14-25 pins per person per game while the Mexia team averaged 168 11-25 pins.

Sweatman of Corsicana turned in the individual high score in the final round when he made 248. Other high scores included Moore, Corsicana, 246; Houston, Corsicana, 245 and 240; Christie Mexia, 244 and 233; Schoeps, Corsicana, 241.

PENICK-TUTORED NETTERS TAKING HOUSTON TOURNEY

KARL KAMRATH DISPOSES OF LOTT; OTHER STARS REMAIN IN RUNNING

HOUSTON, March 31.—(P)—The sort of tennis professor in Greek has been teaching on the side for 25 years at the University of Texas today had all but stopped the show in the second annual Houston invitational.

Among those on top and proudly surveying the field, the only three places incidentally, who had reached the quarter finals, were Wilmer Allison of Austin and Jimmy Quick of Dallas, exes from Dr. D. A. Penick's squads at the University, and Karl Kamrath, the doctor's present No. 1 man.

Allison, seeded No. 3, was the only one of the lot who had been so distinguished. Quick yesterday eliminated Martin Buxby, Texas freshman, who previously had disposed of Ellisworth Vines, national singles champion, and seeded No. 1 in the tournament, 6-3, 6-0.

Kamrath put George Lott of Chicago, seeded No. 2, out of the running, 6-4, 7-5.

Allison reached the quarter-finals by eliminating David Peden, and then defeating Doc Barr of Dallas, 6-1, 6-2.

Along at the top with the Texas contingent were Gilbert Hall of New York, seeded No. 4, and Junior Coen of Kansas City, seeded No. 5. Hall reached the third round yesterday by a victory over Sterling Williams, 3-6, 6-2, 6-1.

Coen, who had advanced to the third round Tuesday, did not play in singles yesterday.

Aggies Will Start Defense Of Baseball Pennant Vs. Frogs

COLLEGE STATION, March 31.—(Spl.)—Their preliminary schedule cleared, the Aggie baseball team will begin the defense of their South-west Conference baseball championship Saturday when they encounter Coach "Dutch" Meyer's Texas Christian University Horned Frogs. The Aggies will begin the defense of their South-west Conference baseball championship Saturday when they encounter Coach "Dutch" Meyer's Texas Christian University Horned Frogs.

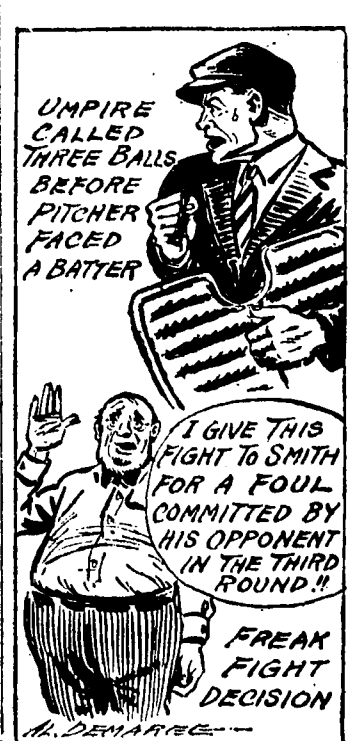

President T. O. Walton of A. and M., is scheduled to pitch the first ball in opening ceremonies. Colonel C. J. Nelson, commandant, will watch, and Dean Charles E. Finley, of the school of arts and sciences, will be at bat.

Coach Higginbotham is expected to select his starting pitcher from a group of four hurlers who have shown to advantage in practice. They are Marshall Shaw, Ennis Lettman, Bob Scheer, Marshall Lettman; Arthur Fischer, Cuero sophomore; W. T. (Buggs) Moon, Holland, sophomore. Moon is a left hander. Either Alf Roark or Hershel Kinzey, brilliant young sophomore twirler, is expected to start on the mound for T. C. U.

Other positions in the Aggie line-up probably will be occupied by Bob Garvey, Livingston, catcher; Earle Weber, Nixon, first base; Walter (Sweetie) Davis, Fort Worth, second base; W. W. Mitchell, Longview, shortstop; George Carpenter, Houston, third base; "Pete" Crozier, Fort Worth, left field; Captain Lester (Squawk) Veltman, San Antonio, center field; Verne Andrews, Bryan, right field. Weber is the only sophomore in this group.

KOCH LINE COACH.
WACO, March 31.—(P)—Barton Koch has been chosen football line coach at Baylor university.

Fights 10 Rounds; Wins in Third

By AL DEMAREE
(Former Pitcher N. Y. Giants)

Freak decisions are usually very amusing. Bill Klein, the dean of National league umpires, once called three balls on "Hub" Purdue, the old Boston pitcher, because he took too much time warming up in the "bull-pen." As the bases were full it put "Hub" in a tough spot, as he walked the batter on one ball pitched.

Ed Smith tells me about a wild and wooly scrap out west that resulted in a decision for the book. "Williams and Melloy were the principals," said Ed, "and at the end of the 10th round Melloy was a badly beaten man."

"Then everybody waited for the decision. 'I give this fight to Williams,' the referee said, with many impressive gestures. 'That was all right and he got a cener. He would have been a hero had he stopped right there. But he wasn't through. Like many another boob he didn't know when to quit the stage; waving his arms for science he yelled: 'I give this fight to Williams for a foul committed by his opponent in the third round.'"

Texas Aggies Track Team to Meet Texas Longhorns Saturday

COLLEGE STATION, March 31.—(Spl.)—Beset by injuries and illness, the Texas Aggie track team will encounter the University of Texas Longhorns in a dual meet Saturday on the Kyle Field track and turf. It will be the first meet of the year for the Aggies and the second for the Longhorns.

The Aggies' chances in South-west conference competition this year probably will depend in a large measure upon a group of sophomore candidates, including G. J. Kohler Palestine, dashes; B. M. Bob Garvey, Livingston, catcher; Earle Weber, Nixon, first base; Walter (Sweetie) Davis, Fort Worth, second base; W. W. Mitchell, Longview, shortstop; George Carpenter, Houston, third base; "Pete" Crozier, Fort Worth, left field; Captain Lester (Squawk) Veltman, San Antonio, center field; Verne Andrews, Bryan, right field. Weber is the only sophomore in this group.

Horned Frogs Will Open Season Friday Against Rice Owls

FORT WORTH, March 31.—(Spl.)—Texas Christian Horned Frogs will inaugurate the 1932 baseball season against the Rice Owls on Friday and play the second tilt of the year against the Aggies at College Station Saturday.

Despite the fact that Coach Meyer has but two veterans, Grassie Hinton and Paul Snow, on his roster, he is looking forward to a successful season. In Hershel "Slim" Kinzey Meyer has one of the best hurlers in the conference and it is on Slim's shoulders that most of the responsibility of the 1932 campaign rests.

In his two appearances against Texas league competition he has made an excellent showing. He held the Fort Worth Cats helpless for six innings early in the season and was also effective against the Wichita Falls Spudgers for four innings. Coach Meyer announced that Kinzey will receive the call for mound duty against the Owls and probably Alf Roark will hurl to the Aggie batsmen Saturday. Boaz Hoskins will be available for relief duty on the mound Saturday.

Hubert Dietzel, sophomore of last year, will be on the receiving end of the hurlers' slants most of the time. At present writing the chances for Ad Dietzel's reinstatement in school are remote and he will probably be replaced at first sack by Vance Woolwine. Dietzel's loss will be a heavy blow to the Frogs' offensive power.

Present writing the chances for Ad Dietzel's reinstatement in school are remote and he will probably be replaced at first sack by Vance Woolwine. Dietzel's loss will be a heavy blow to the Frogs' offensive power.

Students of Angus School Win Several County Meet Honors

ANGUS, March 31.—(Spl.)—Angus students won several honors at the county interscholastic league meet last week. Boaz Hoskins won first place in essay writing; Agnes Haynes, first place in senior girls' declamation; Francis story, first place in junior girls' declamation, and J. R. English won second place in senior boys' declamation.

Rub Dell Caffy and Emmie Cox, second place in senior spelling, and Bobbie Jones and Theo Ann Story second place in subject matter.

These pupils have received their medals and ribbons. This is the best record Angus has ever made at the county meet.

The senior and junior declaimers who won first place will attend the district meet next month in Hillsboro.

Spring Training At Notre Dame Started

SOUTH BEND, Ind., March 31.—(P)—Notre Dame observed the first anniversary of Knute Rockne's death today in just the fashion the Old Master strategists of the gridiron would have ordered—by starting spring football practice.

Coach Hartley "Hank" Anderson and his assistants called the team out for the first drill of the year and with hopes high for another winning combination. Memorial services also were in the day's program.

SPORT NOTES

By PAUL MOORE — Sun Sports Editor

Glen Rose and Wear Schoonover, great Arkansas cage players of a few seasons ago, are still playing basketball and are coaching at Fayetteville and played on the Fayetteville All-Star club during the past season, winning the Pea Ridge Independent tournament. Both still have remarkable ability to loop baskets.

The "ham and egg" tournament is under way at the Country Club course and considerable interest is being shown by the players on the two clubs. The "ham and egg" banquet will be held at the clubhouse Saturday evening at 7 o'clock, with the losing side banqueting the winners.

Spring football training is in full swing and many of the players are showing up exceptionally well. Some of the veterans from the 1931 semi-finalists club may be seriously threatened by some of the newcomers, and a number have been shifted from one position to another. Kinzey, center and Murphy, guard last year, are calling signals. Finley is a real punter and his educated toe saved off defeat in the Austin game last fall on a mud and rain-soaked field. John Kessinger, half, who played some at tackle, is practicing at center and is looking exceptionally good at the pivot position.

Mildred is to have a football team this fall and spring football practice is being held under the direction of Coach Tommie Younger. This will be the first time Mildred has been represented on a football field. Fundamentals of the game are being stressed. An excellent field is available and Coach Younger is matching some games for the fall campaign. Arrangements have already been made for two games with the I.O.O.F. Home club, one at Old Feltows field and the other at Mildred.

Cisco high school has been suspended from athletic competition in the University of Texas interscholastic league for one year as a result of the investigations relative to the playing of Fred Hightower of Corsicana with the Lobes. Protest within the district were upheld by the district committee and later the district committee asked the state body to suspend the club. The Lobes were coached last year by Ted L. Jeffers, formerly assistant manager at Corsicana, who has been signed as the head coach at Wichita Falls for 1932, succeeding Barry Holton.

Rule makers for basketball in session at Chicago are advocating

a number of radical changes for next year, and it seems one of the rules likely to be made is against stalling, providing for the penalizing of a team that apparently is not trying to score. Such a rule would probably speed up the game and make it a more interesting affair. However, basketball has plenty of action in it with the present rules in vogue.

Corsicana and State Home, class A representatives of Navarro county, turned in better records and times in a majority of the events in the county meet than the athletes from the other counties in this district—Hill, Ellis, Johnson and Bosque, according to figures and statistics compiled by Bimbo Merrow. Hillsboro Mirror sports editor Merrow is picking the Navarro county athletes as the favorites for the district meet next week-end in Hillsboro. Corsicana high is the defending track and field champion.

Mr. and Mrs. Arley Henderson and son of Corsicana were Mildred visitors Saturday morning.

Prices of Farm Products Advance During February

WASHINGTON, March 30.—(P)—Farm prices advanced last month for the first time since October.

The index of the general level of prices was 61 per cent of the 1910-1914 average—one point above the February figure.

The index for gains was 61 per cent, the same as a month ago. Slight advances in wheat, barley and rye were offset by a decline in corn prices. Meat animals advanced four points to 69 per cent of pre-war.

Advances also were made by fruits and vegetables which were up five points, and for cotton and cottonseed, up three points. Butter, butter fat and eggs declined five points.

THE CORSICANA DAILY SUN DAILY PATTERN

CHIC JUNIOR ENSEMBLE

PATTERN 2311

STEP-BY-STEP INSTRUCTION DIAGRAM GIVEN WITH THIS PATTERN

By ANNE ADAMS

An excellent model for school is this tailored frock and bolero fashioned of youthful print. And so very easily put together that a young girl could make it herself. The jacket could be worn with other dresses and the frock worn alone, making one's wardrobe appear much larger than it really is. We suggest jersey, wool crepe, linen, pique or shantung for this ensemble, in print or solid color.

Pattern 2311 is obtainable only in sizes 10, 12, 14, 16, 18. Size 12 requires 2 5/8 yards of 36-inch fabric.

Send Fifteen Cents (15c) in coins or stamps (coins preferred), for each pattern. Write plainly your name, address and style number. Be sure to state size wanted.

Send for the New Spring Fashion Catalog. This beautiful, colorful book of thirty-two pages of chic, authentic Anne Adams styles for adults and children. The newest frocks for afternoon, evening and sports wear, exquisite lingerie, attractive house dresses and adorable kiddie models are featured—all personally chosen by Anne Adams and all fashionable, practical, easy and inexpensive to make. Price of Catalog, Fifteen Cents. Catalog and Pattern together, Twenty-five cents. Address all mail and orders to Corsicana Daily Sun Pattern Department, 243 West 15th Street, New York City.

NAVARRO MILLS

CORSICANA, TEX., APR. 1, 1932.

\$1,353,000,000 ROAD PROGRAM.

Funds estimated as available for public road and bridge construction and maintenance in 1932 amount to \$1,353,000,000, according to information collected from road officials by the Bureau of Public Roads, U. S. Department of Agriculture. Of this amount \$882,000,000 is the probable expenditure by State highway departments, and \$471,000,000, it is expected, will be spent by local authorities.

The detailed total of road and bridge expenditures in 1931 is not yet known but the 1932 program is less by 19 per cent than the total rural road expenditure of \$1,680,000,000 in 1930. Comparing State highway expenditures of \$980,000,000 in 1930 with similar funds available for 1932 there is a decrease of 10 per cent. Similarly there is a decrease of 33 per cent in local funds, the 1930 expenditure having been \$700,000,000.

The State highway funds have declined considerably less than local funds because they are derived in large part from motor vehicle and gasoline taxation and there has been no marked reduction in these revenues. The local road funds also participate in these revenues but not to the same extent.

The total estimated expenditure of the State highway departments of \$882,000,000 is divided as follows: Construction of roads and bridges, \$568,000,000; reconstruction and maintenance, \$197,000,000; interest on highway bonds \$64,000,000; and miscellaneous, \$53,000,000.

The State highway departments plan to construct 36,000 miles of road. This mileage includes 8,800 miles of high-type road such as asphalt, concrete, and brick; 17,500 miles of macadam, gravel and sand-clay; and 9,000 miles of graded earth. There is also to be constructed approximately 700 miles of road in New York not distributed by types and the mileage to be constructed in Connecticut and Florida is not included. The State highway departments will maintain 314,900 miles of road.

Similar information concerning local funds and mileage is not available. The States with State highway programs in excess of \$50,000,000 are listed in order of size of program as follows: Pennsylvania, New York, Illinois, California, New Jersey, Ohio, Texas, Missouri, Michigan.

The local program of road construction will exceed \$25,000,000 in the following States, which are listed in order of size of program: Pennsylvania, New York, California, Ohio, Illinois.

Brains may be a chorus girl's greatest asset but a wooden leg would be a greater handicap than a wooden head.

A Dutch millionaire has transported his yacht over the Alps. That's a bet Hannibal and Napoleon missed.

The thing that makes critics tiresome is their inability to find anything new to scold about.

The difference between a coupe and a toupee is that the coupe affords a permanent top.

Faith is belief in things unseen. For instance, men believe in the rights of a minority.

Those who dance must pay the corn doctor.

JUST FOLKS

DISCOVERY

We have lost the foolish notions which have cluttered deep the past.
 We used to think that money was a pleasure that could last.
 We barricaded fortune against thieves who lived to prey.
 But the world went topsy turvy and the dollars slipped away.
 Time was by silk and broadcloth we were very much impressed.
 We thought it proof of courage that a man was richly dressed.
 But we've had two years of hardship and now only brave men smile.
 And we've learned that faith and friendship are more permanent than style.

Once we gave our hearts to splendor and we thought we ought to roam.
 Long we fancied life's great conquests must lie far away from home.
 But the storms of trade swept over us, and we found our triumphs vain.
 And we're back beside the fire, place singing simple songs again.
 (Copyright, 1932, Edgar A. Guest)

A NATIONALIST'S CAUSE

In widely circulated contemporary writing cases are becoming numerous in which foreign trade is minimized as a factor in the prosperity of the United States. In them are noted glaring perversions or misstatements of fact. The evidences are ample of the existence of a propaganda aimed at contenting its readers with business planning and politics which well nigh solely consider the home markets. Obviously, the objective is retention and extension of our record-breaking high tariff system.

In one case the reasoning in a widely circulated article pivoted upon a statement that prior to the 1929-30 depression the export trade of the United States amounted to only 5 per cent of its total trade. The intent was to have it appear a small factor in our whole structure of business and industry.

The leaders of the automobile industry testify and readily demonstrate that up to and including 1929 the value of their exports amounted to more than 15 per cent of the value of their total production. For all United States products, raw and manufactured, the United States Statistical Abstract puts the value of exports in 1929 at about 10 per cent of the value of the total production.

Did President Hoover promulgate a falsehood when in 1928 he stated that our export trade provided livelihood for 2,400,000 American families?

Our exports in 1929 brought into the United States more than five billion dollars. Export and import values combined amounted to 10 billion. The loss in both since the depression comes to 50 per cent. It means that in both accounts the turn-over of five billion a year has been lost to payrolls, industrial earnings, freight and steamship earnings, interest and dividends. The per cent of loss is much higher, of course, among the makers of high value goods which had the lion's share of export demand for manufacturers—automobiles, radios, refrigerators, electric appliances, tires, typewriters, etc. From the families formerly dependent on export trade, the contribution to unemployment is all too obvious.

None can assume to find it the one and only cause of the depression. But that here lies one large cause—the enactment of the Hawley-Smoot tariff and the consequent retaliations by other nations closing their markets to our exports—is so plain, we think, that it should not need the restatement which under the circumstances are necessary.

Nor, as though from under the hat, may any politicians be expected to produce another law and at once work the miracle which would restore the former conditions. But our thought and facts can be kept straight. Emphasis can rest on ways and means to encourage foreign trade resumption. More high tariffs can be resisted. We can examine the best proposals of the politicians which offer aid toward foreign trade revival. For one large thing, we can watch with interest and sympathy the development of another tariff reciprocity movement.

And we can isolate and denounce the bunk and lies being circulated, another

"I Remember a Girl With a Sunbonnet, Onct".

REPUBLICAN FINANCING

Dispatches from Washington tell us that the hard times afflict the Republican national committee, also. It has reduced salaries and began 1932 with only \$6,000 on hand. Nevertheless, on Feb. 29, \$53,000 was received and \$34,000 expended. In sums from \$1,000 to \$5,000 each, 17 contributors gave \$40,000. The 17 include nationally known manufacturers and bankers and the United States ambassadors to Great Britain, Italy, France and Poland. Their names are familiar and an examination of prior lists of donors to Republican funds will find entries of nearly every name. Dependable at present and in the past, we take it that they can be counted on in the future, too.

The times the Republican committee is enduring do not look very hard. What has become in congress of the Nye bill? Is legislation this winter, for both the major national parties, to tighten up the laws of over-lavish financing of political campaigns? To limit it effectively the sums individuals can give, to provide more thoroughly for publicity, to specify definitely what expenditures are lawful? Unless something drastic is done, the finance sheets after next November can again show the winning party, whether Republican or Democratic, under obligation for its campaign funds principally to a few large contributors, many of whom on the face of it have an interest in national executive action or legislation.

of which would cast on advocates of foreign trade planning the odium which, for other reasons, now attaches to the so-called "internationalists." In a case wherein 92 per cent of the world's population lives outside the United States, and possesses only 25 per cent of the world's motor vehicles, is he of this country an internationalist, who realizes the meaning and demands political and business policy which would help him put men to work making cars for the potentially vast world market?

Progress, however intangible, has been made in recent months. Lenz hasn't asked for a return war.

Synonym: A word of more or less similar meaning, used in place of "inflation" or "dole."

Education is expensive, but it isn't as expensive as ignorance.

MANY MEN PUT TO WORK.

President Hoover was informed recently by Mark T. McKee, of Detroit, executive director of the American Legion's nation-wide campaign for re-employment, that 312,897 jobless men have been placed back on the Nation's pay rolls since the drive began, and that as a result a new spirit of courage and confidence is arising throughout the country.

Mr. McKee, who called at the White House with Col. John Thomas Taylor, vice chairman of the Legion's legislative committee, to make a personal report on the accomplishments of the American Legion's drive for re-employment, stated afterwards that the campaign, which began on Feb. 15, would be carried on indefinitely and vigorously in every part of the United States.

The railroads and several important industries in the east, particularly the textile industry of New England and the seasonal fisheries of the Atlantic coast, have sent back to work large numbers of men, said Mr. McKee. Road building and public improvements, carried on by municipalities, have absorbed several thousand workers in the middle west and west.

Smaller communities, under urgent campaigning of Legion posts and labor union officials, have put thousands of jobless men to work on the "man-a-block" plan of residential and business property care and improvement, he added. When the drive began, Feb. 15, in co-operation with the American Federation of Labor, the Association of National Advertisers and the Legion Auxiliary, the Legion announced a goal of 1,000,000 jobs. Mr. McKee said. The Legion's 10,800 posts and the American Federation of Labor's 30,000 locals are co-operating in the drive with a combined membership of 4,250,000.

Very few women are as old as their enemies say they are.

Easter Egg Hunt Given By Mildred Woman for Her Son

MILDRED, March 30.—(Sp.)—Mrs. Oliver Lott entertained her son, James, with an Easter party and egg hunt at her home Sunday. Among those present were James Lott, Marvin Zolder, George Zolder, Madel, Dorothy and David Burnett; and Leroy and LaLille Choate. Prize eggs were hidden and were found by Madel Burnett and James Lott. After the Easter hunt they enjoyed music and other entertainment.

CHAMBER COMMERCE ADOPTS PROGRAM OF WORK AND BUDGET

COMMITTEE OF WOMEN TO URGE "CORSICANA BEAUTIFUL" CAMPAIGN FOR CITY

A program of work for the ensuing year and a budget with a minimum figure set at \$75,000 were adopted by the directors of the Corsicana Chamber of Commerce at their regular session Tuesday morning as the culmination of a series of membership group meetings followed by a series of sessions of the vice-presidents in charge of the various activities.

A committee headed by Mrs. H. R. Stroube and including Mrs. Ted B. Ferguson and Mrs. W. H. Hastings, appeared before the directors and enlisted their cooperation in a "Corsicana Beautiful" campaign, which has as its objective particularly the beautification of available plots along the railroad and highways leading through the city.

In presenting the matter, Mrs. Stroube pointed out that one organization had made a start by beautifying the vacant acreage immediately across the railroad from the Southern Pacific station, and urged that a campaign be launched—city-wide in scope with special competition in several classes, including the industrial, landscape areas, those where some outside assistance has been secured and then the smaller plots worked by the individual owners. The directors endorsed the ideas presented by the ladies and it was announced that one of the standing committees for the chamber would have this as a special problem and that members of the committee would work with the representatives of other organizations in carrying out the program of city beautification as far as possible.

Details of the active campaign are expected to be worked out at a meeting of representatives of all the various organizations within the near future. Budget For Year Adopted. A budget for the year was then adopted with the total of \$75,000 being placed as the total of the fixed expense necessary for the maintenance of the organization. This figure is approximately \$1,000 less than the total expended in 1931. It was pointed out to the directors that by raising an additional one-sixth of the budget that the effectiveness of the chamber would be more than doubled by providing for other than fixed activities.

Included in the budget as adopted were salaries \$4,010, rent \$780, postage \$250, stationery, printing and office equipment \$350, telephone and telegraph services \$200, newspapers and periodicals \$20, water, lights, heat \$200, annual meeting \$137, automobile expense \$420, membership dues \$100, organizations \$30, note at bank \$700. The president announced the annual convention of the East Texas Chamber of Commerce to be held at Lufkin on April 19-20, and the directors authorized to name delegates to the meeting. It was reported that three members of the board serving on the Central Committee for Navarro county on the making of crop loans through the Reconstruction Finance Corporation had been rendering valuable service to the farmers of the county through their services, and that the chamber secretary had been rendering valuable service in the handling of the clerical details of the work in Corsicana. Their services were commended by the board.

J. N. Edens, member of the central committee, asked that an appeal be broadcast over the county asking all those who intend to ask for loans to make their applications at once, so that definite estimate of the amount of funds that will be needed for this county can be ascertained. He pointed out that April 30 was set as the final date for the completion of the loans.

Committee Reports.

The report of the special committee headed by R. L. Hamilton to make recommendations on problems of federal taxation submitted in a questionnaire by the U. S. Chamber of Commerce was presented and adopted. The committee favored the balancing of the budget, curtailment of expenditures, moderate borrowings, limited periods of increased taxes if necessary, and lowering of the personal exemptions, and moderate increase in taxes on personal and corporate incomes. They reported unfavorably on the excise tax, opposed retroactive taxes, and opposed changes in the estates taxes. A program of work for the year was then adopted composed principally of suggestions made in the directors' meetings and in the group membership meetings.

Urging Completion of Highway. Under the head of traffic and transportation under the direction of Vice-president J. N. Edens the program included efforts to complete highway 31 east and west from Corsicana; all possible activity to secure the unconditional designation and earliest possible completion of highway 22 from the Anderson county line to the Hill county line; the completion of the program of the X-all highway association; more courteous treatment of tourist traffic; and cooperation with the railroads in their plans for the development of properties in and near Corsicana.

An extensive discussion followed the presentation of the item concerning the railroads, but no definite action was taken.

Presented under the division of agricultural activities headed by N. Suttle Roberts, assistance in making crop loans, encouragement of growing of more money crops, investigation of dairying enterprises in other communities and as far as possible duplicating the efforts in Navarro county; and cooperation with the various vocational teachers in the county in the dissemination of technical knowledge.

Civic Affairs Committee. Under the civic affairs committee headed by Lowry Martin were listed a city wide beautification and clean-up campaign; a campaign for the improvement and modernization of water supply

ties; establishment of a bus terminal with facilities in keeping with those in other towns of Corsicana's size; and a year round fire-prevention campaign looking toward a reduction in the fire rate penalty now in force.

In the department of conventions and publicity headed by Festus A. Pierce, more conventions are to be sought, a consistent effort made to encourage community hospitality to transient travelers and people from the new trade territory; education of the people of Corsicana and this trade territory to the advantages of the city as a place to live and trade.

Series of Trades Days. In the division of mercantile activities, under the direction of Sydney Marks, a suggestion was incorporated for a regular series of trades days to be sponsored by the merchants in an effort to draw people from the surrounding trade territory into Corsicana; and educational campaign on importance of the local markets and support of home town merchants; and as far as possible eliminating the peddler nuisance.

Under the head of industrial activities headed by C. C. Roberts, it was suggested that a thorough and intelligent investigation be made of all industries whose propositions may be presented here as a protection to Corsicana investigators.

The program of the division on

Crowds Watch Robbers Loot Oklahoma Bank

SHAMROCK, Okla., March 28.—(A7)—While citizens looked on from the outside, two over-all-clad robbers looted the Citizens' Bank here of \$400 today and escaped southward, taking two bank officials with them as shields.

The officials, D. C. Sellers, cashier, and his brother, R. A. Sellers, teller, were released unharmed from the robber car as it sped out of town. Officers from Drumright, summoned by witnesses to the hold-up, arrived a few minutes after the robbers had fled. "I don't know why the people didn't do something," D. C. Sellers said after returning to the bank. "The whole town gathered around and watched the robbery."

educational affairs headed by W. P. McCammon will be announced later.

Among those attending the meeting Tuesday were Sydney Marks, Ted B. Ferguson, W. O. Garwell, Lowry Martin, J. M. Dyer, Jr., W. M. Spear, Clyde Foster, J. N. Edens, F. A. Pierce and A. F. Mitchell.

IMPROVEMENT SHOWN BUSINESS ELEVENTH RESERVE DISTRICT

GRADUAL STRENGTHENING OF CONFIDENCE BRINGS MORE CONSUMER BUYING

DALLAS, Mar. 31.—(P)—Encouraging improvement of business in the Eleventh Federal Reserve district in the last month was noted today in the monthly business review of the Dallas Federal Reserve bank.

"There has been a gradual strengthening of sentiment," the report declared, and it is being reflected in a consequent increase in consumer buying. A stronger demand for merchandise in both wholesale and retail channels of distribution was in evidence in the district during the month. This is the result of a stronger undertone of confidence and consumer demand is quickening in some localities."

Sales of department stores in larger cities reflected a gain of 11 per cent over the previous month while 22 per cent below those of a year ago, they showed a much better comparison than in January.

"Financial operations reflected no significant changes," the report pointed out. "Federal Reserve bank loans to member banks, which amounted to \$14,020,000 on March 15, were slightly lower than a month earlier but considerably in excess of the corresponding date last year."

"The daily average of combined net demand and time deposits of member banks totaled \$665,682,000 during February, as compared with \$664,084,000 in January and \$618,068,000 in February, 1931."

Farm Work Goes Forward
Farm work, which had been retarded considerably during the first six weeks of the year, proceeded fairly satisfactorily during the latter part of February and early part of March, but the report noted there yet was much land which was not prepared for spring planting.

This situation was aggravated during the last ten days, when severe frosts damaged considerably early planted crops. Fruit and truck crops likewise suffered much injury. Although considerably behind schedule, farmers should be able to overcome this handicap in a short time in the event favorable weather prevails. A good season obtains in all sections of the district. Ranges and live stock showed a noticeable improvement in February and while ranges were set back by the March freezes, live stock generally held up well."

Debits Decline
The month of February witnessed a further seasonal decline of 15.4 per cent in the volume of debits to individual accounts at the 17 cities in the Eleventh district. Total charges during the month amounted to \$804,572,000 as compared with \$956,515,000 in January and \$646,086,000 in February last year.

"Representing the second occurrence of its kind this season, the report noted, "shipments of cotton from Houston and Galveston were noticeably contrary to seasonal tendencies, being much greater than those a month earlier and materially above the 1931-30 average. As compared with the corresponding month of 1931, February exports, which amounted to 644,764 bales, were over one and one-half times greater. On the other hand, the customary seasonal decline was recorded during the month in receipts of cotton."

Petroleum output in the district declined substantially, February production amounting to 25,876,700 barrels, as compared with 28,335,550 barrels in January and 21,482,640 barrels in February, 1931. Daily average production was 21,782 barrels less than in the previous month and drilling operations also were reduced. There were 406 producing wells completed in February compared to 400 in January. The biggest decline was in the East-Central Texas field as a result of the reduction in production allowance.

MEASURE IN SENATE TO BE BROUGHT UP ROAD CONSTRUCTION

WASHINGTON, March 31.—(AP)—A determined effort by democratic senators to force action on the house bill for a \$135,000,000 emergency road construction program is to be made as soon as the pending tariff bill is voted.

The road measure is a democratic project for relieving unemployment by making possible state road construction with federal funds entirely. The bill carries \$120,000,000 to match available regular federal aid allocations, the new funds to be repaid by the states gradually out of future federal aid money. Some republicans have predicted its veto, if passed.

Sponsors of the bill were confident they could place the bill on the calendar despite the refusal of the republican steering committee to give it preferred place. The entire democratic side, plus many western independent republicans, are counted for considering the bill.

When it comes up Senator Wagner (D., N. Y.) intends to try amending it to add his \$75,000,000 direct relief bill. This, similar to the La Follette-Costigan measure, which the senate defeated, differs in that it provides for reimbursement to the federal government by the states in caring for the unemployed.

Houston Girl on Way Brazil for Wedding

RIO DE JANEIRO, Brazil, Mar. 31.—(AP)—Miss Inez Hanna of Houston, Texas, paused here briefly today on a 21-day honeymoon plane to Porto Alegre where she will become the bride of Karl Dittman, manager of the Pan-American airport there. She left Miami a week ago and was due at Porto Alegre this afternoon.

ROUNDUP OF WILD HORSES IN SOUTHEASTERN SECTION OF ARKANSAS UNROMANTIC

LITTLE ROCK, Ark., March 31.—(P)—A hard riding band of unromantic cowboys has started a roundup of wild horses in southeastern Arkansas for purely practical purposes.

The jangle of silver spurs is missing. There is no flourish of six guns. Dogs, modern corals and drift fences have replaced braided rawhide ropes. And pulling animals may wind up capturing a plow instead of in the remuda of an Indian-dodging rancher or trapper.

These modern cowboys, most of them plainly clad in overalls, are making the drive as a part of the federal and state tick eradication program.

Vets and corals have been constructed in Chicot and Desha counties where the wild horses roam the swamps and canebrakes and the animals caught are dipped to prevent them from carrying ticks, given to their captor or sold to defray expenses of the roundup.

The roundup lacks even the magnitude federal and state officials originally expected it to attain. Farmers captured many of the wild horses when flood waters isolated and hemmed in the bands earlier this year. Only comparatively few remain.

W. A. McDonald, inspector of the federal bureau of animal industry here, said a final drive had been launched, to capture the rest of the horses. Extermination of the bands, he explained, is necessary to the tick eradication program as they are carriers. Riders and dogs in relays drive the horses out of underbrush and canebrakes until they have become tired and can be corralled. Officials said they did not know how long the roundup would last.

NAVIGATION OPEN BUT TRAFFIC LIGHT ON GREAT LAKES

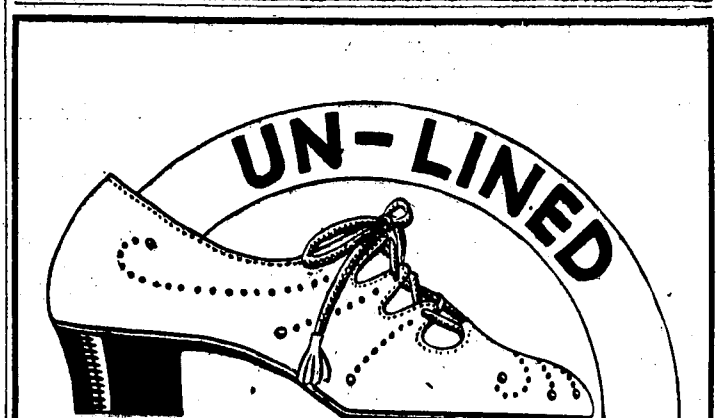

CLEVELAND, March 31.—(AP)—Usually humming with activity at this time of year, Great Lakes docks for the most part are idle, although the start of the navigation season is at hand.

A few coal boats have cleared from Lake Erie ports but insurance rates do not become effective until April 15—the date for officially opening navigation. The Detroit and Cleveland Navigation company opened the season yesterday with the sailing of the first passenger boat from Detroit to Cleveland.

Usually at this time of year the large cargo carrying companies have announced assignments of masters and engineers but this year the number of jobs is uncertain.

Shipping companies are planning to move this year between 12 and 15 million tons of ore from Lake Superior ports to Lake Erie docks the lowest amount since 1898 and nearly 10 million tons less than last year.

SENATOR GLASS SAYS CONSPIRACY BACKS OPPOSITION SPONSOR BANKING MEASURE MAKES DEFINITE CHARGE IN HEARING

WASHINGTON, March 31.—(AP)—The extraordinary charge of Senator Carter Glass that a conspiracy, inspired in the capital, was responsible for the endless stream of testimony against his banking reform bill, forshadowed an eventful future for a measure which already has had a checkered career.

The democratic former secretary of the treasury has spent years perfecting the measure, principally with the idea of preventing the use of federal reserve credit for stock market speculation. He had the bill ready at the outset of the session but found it pushed aside time and time again by emergency legislation, to which he gave strong support. When he agreed to sponsor federal reserve credit expansion act, it was understood that administration forces had promised to support his reform bill, subject to some modification.

When the decks were cleared once again, up came the proposal for an investigation of stock market bear raiders. Chairman Norbeck (R., S. D.) of the banking committee definitely refused to set a date for this administration-sponsored investigation until the Glass bill had been disposed of. Then came a demand for hearings on the bill. They resulted in testimony from a score or so prominent bankers, almost unanimous in saying this was not the time for such legislation, that it would retard recovery, that bankers should be given latitude to control their own credit problems.

Senator Glass gave signs of losing his patience. It broke completely when yesterday James Francis Burke, who is counsel for the republican national committee but appeared solely as legal representative of the "Pittsburgh" clearing house, added his scolding to the bill.

Glass then told his colleagues that the witnesses had been called here by two men who coached and tutored them in what to say. He gave no indication whether the men he accused were connected with the administration or with private banking.

He predicted later the committee would investigate and uncover the whole "conspiracy," and all toward would approve his bill with some revisions.

Dr. Allen Elected Vice President Of Baylor University

WACO, March 31.—(P)—Dr. W. S. Allen has been elected vice-president of Baylor University, a new office in the school, and dean of College of Arts and Sciences. The school's board of trustees made the election on recommendation of former Governor Pat M. Neff, president-elect. Dr. Allen has been acting president the past year.

Dr. Allen, who has been at Baylor since 1924, is a native of Texas and a graduate of the University of Texas at Austin. He has been a member of the American Association of University Professors since 1924.

The scholastic enumeration of the Corsicana school district has been completed, it was announced Thursday morning by W. H. Norwood, superintendent, but if anyone has been omitted from the census they are requested to communicate with the superintendent's office. The enumeration, according to Mr. Norwood, is vitally important to the ensuing year's welfare of the school, as for every child of school age counted, the local schools will receive a state allotment of \$17.50, with which to carry on the school work for the year.

Last year's net enrollment as compiled from the scholastic census was 3,481, to which 338 transfers were added, and Mr. Norwood stated today the officials have every reason to believe this year's count will be as large as last year's. The enumeration has no connection with the state compulsory attendance law.

As the superintendent is very desirous of getting every scholastic counted, he announced the following ways some could have been omitted, and expressed the hope those coming under these headings will communicate with his office, and give the desired data concerning the child's birth.

Those who might have been out of the city during the census taking; those moving to Corsicana since March 1; children who will not be 18 years old on or before next September 1, and because of graduation and other reasons are not now in school; and children under six years old who are not now in school, but intend to enter next year, because they will be six years old before Sept. 1.

Children who do not live in the city, but who are attending the Corsicana schools now, or plan to attend next year, must be enumerated in the districts wherein they live, and a transfer must be requested before August 1. The children being counted in the census are those who were six years old on or before Sept. 1, 1932, or those who were under 18 years old on or before Sept. 1, 1932. Children born on or before Sept. 1, 1934, or after Sept. 1, 1934, will not be counted.

Beauty Chats

By Edna Kent Forbes

All requests for beauty information desired by Edna Kent Forbes column followers must be accompanied by a fully self-addressed, stamped envelope (4 x 6 in.) and two cents in stamps to cover cost of printing and handling.

For the illustrated pamphlet, "BEAUTY," ten cents in stamps with fully self-addressed, stamped envelope in care of this paper.

IDEAS FOR BEAUTY CHATS

If You Run a Beauty Shop Or even if you don't, but give yourself very careful treatments at home, these ideas of Miss Forbes today will be useful to you. You might follow them when you shampoo your hair.

Although this Chat is really written for those who run, or who work in, beauty shops, it has an idea in it for the woman who does all her own "beauty culture." Beauty shops have not escaped the depression, though the good ones have been the last to feel it. And they'll be among the first to notice the revival in trade which everyone assures us is just beginning. Out here in Hollywood you'd never dream there had ever been a depression, or that people had to economize, or that you visit the beauty shops—except that prices are extraordinarily cheap, and "way" below the 1929 levels. Besides, more is given for the money. One day, with a head aching from the sun that baked out with such tropical heat, after weeks of cold wet weather, I went in one of the good shops for a shampoo. The hot and cold water would relieve my head, I thought, and I could relax while my hair was drying and shut my eyes. The girl who was to shampoo me began to massage the head, gently working her fingers around the scalp, down to the forehead, and over the temples. Then she loosened my collar, and began to work on the muscles around the back of the neck. "The neck is always tight back there when you're tired," she explained.

"It was expert massage, and long before she washed my hair the headache was practically gone. A hot massage, a cold rinse, and it was like coming to life again. Then she rubbed the hair dry with her fingers and with a long-bristled brush. It not only looked better at the end, but the whole scalp was exhilarated. The headache was a thing of the past. I think like this when there is occasion."

And I suggest that when you are feeling tired you try a shampoo of this sort yourself. Massage, wash, rinse and then dry by massage, and by using a clean hair brush. Let the brush dry while you massage and use it for some time, brushing the hair as it should be worn when dry. The hair will be glossy and lovely to look at and well "shaped" when it is dry.

M. L. V.—Any cream made from a fine grade of almond or olive oil will be suitable for your skin to follow the cleansing with soap and water. If your skin is inclined to dry you might make use of this to do some massaging and give the skin as much of the cream as it will take up with a five or 10 minute massage. Wipe off any remaining cream on the surface and close the pores with a cold water rinse. If you care to make up your own cream, and send a self-addressed, stamped envelope with a request for a cream formula, I shall be glad to mail it to you.

F. L. R.—Unless you took enough exercise to counteract the effects of your inactivity over most of the way, you would be apt to take on too much weight around the hips and abdomen. If you were not inclined to build up fatty tissue, this lack of exercise would show in some other way, such as sagging from poor elimination, or a loss of appetite. If the bones in the arches of your feet have fallen, you would have flat feet from the trouble. There are supports for fallen arches, and there are exercises that will help to correct or cure the trouble. The best thing for you to do is to have a competent chiropodist examine your feet, and if you need support you will be told just what is needed.

COMPLETE DETAILS NEW FORD CARS IS RELEASED THURSDAY

SEVERAL DIFFERENT MODELS OF NEW FORD EIGHT BE SHOWN HERE SOON

Complete details of the new V-8 cylinder Ford automobile were released to the public Thursday by R. L. Calkins, Corsicana Ford dealer, who also announced that within a few days a number of models of the new car will be placed on display in Corsicana.

In the meantime, an extensive exhibit of photographic reproductions of the new car, and well-informed salesmen were on hand to answer the countless questions in the mind of the general public concerning the latest innovation produced by Ford genius in automobile circles.

The new product is large, roomy, fast, powerful and alert, equipped with a 65-horsepower motor capable of making 75 miles per hour, and a new body that embodies the latest trends in body design from its rounded V-type radiator to its redesigned rear bumper.

Thursday models are offered equipped either with the new V-8 or with a new 50-horsepower motor. Many mechanical advances are incorporated in the new automobile, including a synchronized steering gear, silent second gear, rubber engine mountings, downdraft carburetor and carburetor silencer, automatic spark control, fuel pump and fuel tank in the rear of the car, other changes include a newly designed rear spring, thermostatically controlled double-acting shock absorbers, larger four-wheel brakes, newly designed wheels and larger tires. The chassis and running gear are cushioned in rubber insulators in the spring shackles and shock absorber links. The body is also insulated with rubber from the frame.

The new Ford power plant is of the 80-degree V-type developing 35 brake horsepower at 3400 revolutions per minute. It has a 65-horsepower crankshaft of the 80-degree type with its four cranks at right angles to each other. Cylinder blocks and crankcase are cast in one unit, and one-piece valves operate directly from the camshaft without pushrods. The motor is also equipped with two centrifugal water pumps.

Prices released Thursday indicate that the new models will range from \$15 per model higher than the 1931 models, while the new V-8s are \$50 less than the new V-8s.

BARTH BUILDING BEING REMODELED FOR SINCLAIR OIL

Work of altering and remodeling the W. H. Barth building at the intersection of West Fifth and North Main streets is now being completed by the Sinclair Refining company super-service station was started Thursday morning, F. V. Blucher, local Sinclair agent, announced today.

The building was extensively overhauled and practically rebuilt for the new tenant and plans call for one of the most modern and attractive stations in Corsicana and vicinity when completed. The new building is expected to approximate \$4000.

The new enterprise will occupy the portion of the building formerly occupied by the Hicks Rubber company and the Sinclair Refining company. The new building is expected to approximate \$4000.

Local labor will be used on the project. The Sinclair Refining company is in charge of the project. The new building is expected to approximate \$4000.

Bonus Bill

(Continued from page 1.)

Trinity coupled with the effort to pass the federal budget, another problem to solve.

Party leaders say the bill is likely to pass the house, and possibly the senate.

Representative Hoover has indicated he will veto the bill, should it reach him. This would throw the measure back to congress where a two-thirds vote of each branch would be necessary to override the veto.

Proponents of the bonus bill today have more than the necessary 145 members to sign a petition to compel a vote in the senate should the ways and means committee fail to report it.

Opponents of the measure argue that the problem of balancing the budget has been such that a two billion dollar additional expenditure would prove a serious governmental burden.
